BILL OF QUANTITIES

Improvement of Bridge across Spill Tail Canal, Widening of Spill Tail Canal, Improvement of 202/D5 Canal Damaged due to Flood, Concreting of 202/D5 Canal Road, Gravelling of Giralagolla Tank Bund Road in Millaththewa Unit of Giradurukotte Block in System C

CONTRACT NO. DDG/TS/CON/C/IRR/24

PREAMBLE TO THE BILL OF QUANTITIES

1. LOCATION

The site is located in **Giradurukotte Town**.

2. RATES AND PRICES

The bill of quantities (BOQ) and this preamble shall be read in conjunction with all the other documents forming the contract, for details of all conditions, obligations, liabilities and instructions which shall be complied with by the Contractor. The cost of complying with all such conditions, obligations, liabilities and instructions including all charges for overheads, profits and all direct taxes shall be deemed to be spread over and included in the rates or sums inserted by the Contractor in the BOQ where they are not themselves covered by specific bill items. In case of the taxes only the value added tax (VAT) will be paid separately.

All items of the work shall comply exactly with the contract unless otherwise approved by the Engineer and the rates and the sum inserted in the BOQ shall be deemed to apply to the work as specified. If, for his own convenience or reasons of availability, the Contractor proposes and the Engineer approves the use or provision of alternative items, materials or methods of working of equivalent or superior quality to those specified in the Contract, the rates and sums inserted in the BOQ shall not in any case be increased as a result.

3. QUANTITIES

The quantities of work and other items set forth in the BOQ are estimate only and are not to be considered as limiting or extending the amount of work to be done and other items to be provided by the Contractor. But any considerable variation of quantities with the BOQ must be informed to the Engineer for approval prior to its execution. The works as completed in accordance with the contract shall be measured and paid in accordance with the provision of the contract.

Where, for his own purpose or due to his default, the Contractor carries out the works in such a manner that the quantity of any item of work in a particular component to be measured for payment purposes differs from that shown on the drawings or directed by the Engineer, then payment shall be made according to the lesser of the actual quantity and that so shown or directed. An excess quantity in one part of the component shall not however be allowed to offset a deficit elsewhere in the same component for measurement purposes. Where the determination for payment purposes of the quantity of any items of the work depends upon the measurement of existing features or ground level and the like, then prior to carrying out any operations which might affect such measurement, the contractor shall first take such levels and measurements as the Engineer may direct and, after the Engineer has had the opportunity to check the same, they shall be certified as agreed by both Engineer and the Contractor. In the event that the Contractor fails to observe the above procedure, the Engineer shall determine the quantity to be assumed for payment purposes using the best information available to him, and his decision in the matter shall be final.

Item in the BOQ marked "PROVISIONAL QUANTITY "or " PROVISIONAL ITEM " shall only be executed if they are the subjects of a written instruction from the Engineer. The Contractor is expected to substantiate his claims under these items, where applicable, with appropriate invoices, receipts etc. The rates set out for such items shall be used for the payment of the work so ordered by the Engineer,

whether the quantities shown are used wholly or in part or not at all. The indicated provisional sum is the upper ceiling for the payment of the particular item.

4. UNITS

Metric units are used throughout the BOQ for measurement purposes unless otherwise indicated.

Abbreviations used in the Contract are as follows:

mm	Millimetre	sq.m.	Square meter
cm	Centimetre	Ha	Hectare
m	Linear metre	cu.m	Cubic meter
km	Kilometre	No.	Numbers
g	Gram	cumec	Cubic metre per second
kg	Kilogram	Rs	Sri Lankan Rupee
l	Litre	Cts	Cents
MT	Tonne (Metric Ton.)	MHr	Machine hours

5. GUIDE TO BOQ

Schedule 01

Preliminary Items

Schedule 02

Construction Items.

MEASUREMENT NOTES

1). Provisional Sum Items in Schedule 1 of the Bill of Quantities

For Provisional Sum items under Schedule 1 , the Contractor is expected to substantiate his claims where applicable, with appropriate invoices, receipts etc.

2). Lump Sum item in schedule 1 Bill of Quantities

The amount quoted by the Contractor for these items are the maximum amount paid by the Employer for obtaining the said services by the Contractor throughout the construction period including any extension to the same.

The Contractor should substantiate his claims under this item with the proofs regarding the assistance, guidance and services obtained from the construction manager with his acknowledgements for receiving the payments. The Engineer may consider the payments under the item 1.6 only if construction manager effectively provided his service.

The details of the construction manager should have been provided by the Contractor in Annex-01 of this document with a firm commitment letter from him indicating that he provides his service to this particular construction work undertaken by the Contractor.

In accomplishment of all the above requirements, as the claim made by the Contractor, the payment will be made in Contractor's progress claims proportionate to the work completed in the contract to the total contract price.

MINIMUM REQUIREMENT OF CONCTACTOR'S SITE STAFF

The list of staff, above the supervisory grade, indicated in the schedule below is considered to be the minimum staff required at site for the execution of the Works under this Contract. However, the Bidder may revise the schedule to suit his requirements.

Cost of this staff is deemed to be covered under the unit rates for construction items by the Bidder.

Grade of Staff (1)	Required Qualifications (2)	Minimum No. of positions (3)	Bidder's Proposal	
			Qualification (4)	No. of positions (5)
Site Agent	Minimum 5 years' experience as site agent in similar works or NCT with minimum 3 years in similar works	1		

VALUE ADDED TAX (VAT)

Value Added Tax (VAT) shall not be included in the unit rates for items in the Bill of Quantities and in the tender sum. **For evaluation purposes, it will be presumed that the Tender Sum does not include VAT.**

1. The **VAT** liability on the service rendered under the Contract shall be considered as a separate expenditure borne by the Employer, and not as a part of the Contract Price.
2. Those who intend to claim the **VAT** liability from the Employer shall be registered for **VAT** with the Department of Inland Revenue and should fill in the information required below:

- a). Name of Contract:
- b). Contract No:
- c). Name & address of Bidder:
- d). **VAT** Registration No.:
- e). Bid Sum:
- f). **VAT** sum at due on the Bid Sum:
- g). Signature of the Tenderer:

[A copy of the Certificate of **VAT** Registration should be attached]
